

## Jacob Je-Chian Lin

3143, Newmark Civil Engineering Laboratory  
University of Illinois at Urbana-Champaign  
205 N. Mathews Ave., Urbana, IL 61801  
jlin67@illinois.edu  
(217) 898 – 3452

### EDUCATION

---

#### UNIVERSITY OF ILLIOIS, URBANA-CHAMPAIGN (UIUC)

**Ph.D.** in Civil and Environmental Engineering August 2020

*Dissertation Title:* “Visual and Virtual Production Management System for Proactive Project Controls on Construction Projects”

*Dissertation Advisor:* Prof. Mani Golparvar-Fard

**M.S.** in Computer Science May 2018

*Dissertation Title:* “The Design of Human-Information Interfaces for Visual Production Management in Construction”

*Dissertation Advisor:* Prof. Wai-Tat Fu (Computer Science)  
Prof. Mani Golparvar-Fard (Civil Eng.)

#### NATIONAL TAIWAN UNIVERSITY

**M.S.** in Civil and Environmental Engineering July 2013

**B.S.** in Civil and Environmental Engineering July 2010

### RESEARCH EXPERIENCES

---

**Research Assistant** Aug. 2014 - present

Advisor: Dr. Mani Golparvar-Fard, UIUC

- Conducted and led research on predictive visual data analytics using Computer Vision and Machine Learning techniques for improving *performance monitoring*, *risk analysis* and *project controls*.
- Developed construction performance metrics that measure risk around work breakdown structure locations, asses reliability of weekly work plan and master schedule and support root cause assessment on plan failure in task and project level.
- Developed a deep learning architecture to detect and classify state of work-in-progress using fused Structure-from-Motion geometrical features together with directional and radial appearance features.
- Developed and implemented a Visual Production Management System (jointly present 4D reality and planned models) for *project controls* and its synergy with lean construction to improve communication, coordination and planning.
- Conducted and led research on automation of 4D BIM using Natural Language Processing and Cloud-Based Computing to develop an end-to-end solution that analyzed schedule tasks and broke down BIM models to automated mapping corresponding elements.
- Conducted and led research on the user interface and experience design of visualizing risk and performance with workflow coordination using visual tools to minimize the resistance of introducing new technologies in construction.

## **Jacob Je-Chian Lin**

---

- Conducted research on automated indoor progress monitoring utilizing ground robots to map indoor construction sites in real time using an integrated platform with LiDAR, Kinect and 360 camera.
- Developed an automated visual data collection framework using UAVs to support a complete/accurate point cloud reconstruction.

### **Visiting Scholar**

Aug. 2012 – Jul 2013

Advisor: Dr. Ken-Yu Lin, University of Washington

- Conducted research on a user-centered construction safety inspection tool to improve day-to-day practices and management for safety hazard prevention.
- Developed and evaluated an iPad application for auditing safety violations in construction sites.
- Developed and maintained a fall protection training game developed in Unity 3D for non-English speaking and illiterate construction workers with OSHA.

### **Research Assistant**

Aug. 2008– Jul 2012

Advisor: Dr. Shih-Chung Kang, National Taiwan University

- Conducted and led research on optimization of construction equipment logistics using Motion Planning in Robotics for improving site layout planning and construction equipment management.
- Conducted and led research on using game engines to simulate a composite hazard walkthrough system for enhancing disaster mitigation awareness and developed a game system in Unity 3D.
- Conducted research on simulation of tandem and triple crane lifts using Motion Planning in Robotics for improving planning and preventing safety issues and developed the crane simulation system using Microsoft XNA
- Conducted research on 4D BIM simulation for heavy civil infrastructure project with CTCI corp.

## **INDUSTRY EXPERIENCES**

---

### **Lead VDC+Lean Manager**

Aug. 2017 - present

Reconstruct Inc., Champaign Research Park, IL

- Developed the workflow to fully integrate the Reconstruct system into traditional project control methods by streamlining the process of progress reporting, delay analysis, potential risk management and schedule updates.
- Developed the risk management system to answer: (1) Will all ongoing activities finish on time? (2) Will all upcoming activities start on time? And (3) What are the at-risk locations for delay?
- Provide VDC related support for 10+ over hundred million projects including: (1) reviewing quality of BIM, reality models for Reconstruct integration; (2) developing 4D BIM for constructability analysis; (3) analyzing long/short term schedule deviation and delay root-causes and (4) evaluating progress data for schedule prediction.

### **Lead Visualization Manager**

Aug. 2015 - Jul. 2017

Reconstruct Inc., Champaign Research Park, IL

## **Jacob Je-Chian Lin**

---

- Developed the web-based viewer prototype that visualizes point clouds and BIMs in a timeline with a schedule and analyzes the reliability of the Weekly Work Plan in a color-coded model.
- Led the development of 4D BIM, schedule updates, planning and visualization, progress tracking app, productivity data analytics, long/short term plans alignment and report generation
- Established national guidelines for drone safety on construction sites for multiple

### **Safety Inspector Intern**

Feb. 2013 – Jul. 2013

SD Deacon, Seattle, WA

- Responsible for safety inspections for 10+ projects and conducted weekly site walks to audit safety violations.
- Introduced new technologies to enhance the efficiency of the safety inspection process.

### **Substitute Military Officer**

Aug. 2013 – Aug. 2014

Water Resource Agency, Taipei, Taiwan

- Responsible for flood monitoring and notifying potential at-risk areas during heavy rain and typhoon alerts.
- Was part of the national disaster response team during typhoon alerts.
- Translated scientific papers and articles to help develop government policies related to water resources.

## **TEACHING EXPERIENCES**

---

### **Teaching Assistant**

Jan. 2018 – May. 2018

CS 465 User Interface Design, Department of Computer Science, UIUC

- Lectured “Wireframing” session
- Guided students to finish their final project of designing a product user interface and user experience

### **Teaching Assistant**

Aug. 2018 – Dec. 2018

Jan. 2019 – May 2019

CEE 320 Construction Engineering and Management, Department of Civil and Environmental Engineering, UIUC

- Lectured “Preliminary Estimating” and “Project Financing I” sessions
- Designed and graded assignments and quizzes

### **Teaching Assistant**

Jan. 2016 – May 2016

CEE 598 Building Information Modeling (graduate-level), Department of Civil and Environmental Engineering, UIUC

- Taught multiple hands-on sessions on Autodesk Revit, Navisworks and Synchro
- Guided students to finish their request for bidding projects in a Virtual Design and Construction aspect

### **Teaching Assistant**

Jan. 2015 – May 2015

CEE 598 Visual Sensing for Civil Infrastructure Engineering and Management (graduate-level), Department of Civil and Environmental Engineering, UIUC

- Introduced state-of-the-art research resources to students for their projects.
- Helped students with programming for assignments and projects.

## Jacob Je-Chian Lin

---

- Taught multiple MATLAB sessions and introduction to object recognition.

### Tutor

Aug. 2006 – Aug. 2007

Private, Taipei, Taiwan

- Taught Physics and Math to high school students

## MENTORSHIP/RESEARCH SUPERVISION EXPERIENCE

---

### Research Supervision

Aug. 2014 – present

Real-time and Automated Monitoring and Controls Lab, UIUC

- Supervised below students in Architecture, CEE and CS with research projects and thesis.
- Graduate students:

1. Mohammad Taheri (1 term)	7. Yi-Hui Song (3 terms)	13. Achint Sharma (2 terms)
2. Orkideh Rahebi (1 term)	8. Juan-Diego Nunez (2 terms)	14. Antonio Rodriguez (1 term)
3. Santiago Martinez (1 term)	9. Gustavo Garcia (2 terms)	15. Nour Daboussi (2 terms)
4. Mo Hmaidi (1 term)	10. Siddharth Shah (2 terms)	16. Shou Chen (2 terms)
5. Maria Franco Mendez (1 term)	11. Manish Patidar (2 terms)	17. Kawai Tsoi (2 terms)
6. Isha Kumari (1 term)	12. Elnaz Moslemi (1 term)	18. Monica Chhatwani (2 terms)
- Undergraduate students:

1. Insoo Kim (4 term)	6. Jacob Feng (4 terms)	11. Nikhil Nanda (2 terms)
2. Yumo Chi (4 term)	7. Natsuki Okuda (2 terms)	12. Rebecca Nothof (2 terms)
3. Dihan Yang (4 term)	8. Ken Wang (1 terms)	13. Hugh Lo (2 terms)
4. Darren Liu (3 term)	9. Joseph Akyeampong (2 terms)	
5. Jill Fan (3 term)	10. Joseph Bongungu (2 terms)	

## AWARDS/HONORS

---

Winners of World Economic Forum - Future of Construction Ideas Competition, <i>World Economic Forum</i>	Feb., 2017
2016 CMAA Chicago Chapter Scholarship, <i>Construction Management Association of America</i> .	May, 2016
2016 William E. O'Neil Research Award, <i>W.E. O'Neil Construction</i> .	Aug., 2016
Best Paper Award, <i>2015 ASCE International Workshop on Computing in Civil Engineering</i> .	Jun., 2015
University of Illinois Civil and Environmental Engineering Fellowship, <i>UIUC Department of Civil and Environmental Engineering</i>	Aug., 2014
Inducted Member, <i>Tau Beta Pi the Engineering Honor Society</i>	Dec., 2014
Honored Member, <i>Phi Tau Phi Scholastic Honor Society of Republic of China</i> .	Jun., 2013
Award of Engineering Technology, <i>China Engineering Consultants Inc.</i>	Jun., 2011
Award of Innovation Competition, <i>National Taiwan University</i>	Jun., 2011
Award of Student Engineering Paper Competition, <i>Chinese Institute of Engineers</i>	Jun., 2010

## OFFICIAL REVIEW SERVICES

---

Reviewer, <i>ASCE Journal of Construction Engineering and Management</i>	Feb. 2018 - present
Reviewer, <i>Elsevier Automation in Construction</i>	Nov. 2018 - present
Reviewer, <i>ASCE Journal of Computing in Civil Engineering</i>	Oct. 2014 – present

## Jacob Je-Chian Lin

Reviewer, 2016 Construction Research Congress, May 31-Jun.2 2016,  
San Juan, Puerto Rico.

2015

### RESEARCH PROPOSAL

---

Model-driven Visual Sensing and Analytics for Enhanced Production Control in Construction,  
National Science Foundation, UIUC  
Actively participated in writing  
PI: Mani Golparvar-Fard

### PUBLICATIONS

---

#### Refereed Academic Journals Published and Under Review

- 5 **Lin, J.J.**, and Golparvar-Fard, M. (under review: submitted in Dec, 2019) “A Visual and Virtual Production Management System For Proactive Project Controls,” *Journal of Construction Engineering and Management*.
